

From *Hot Rod™ Magazine's* "Power Tour" in the Arizona desert and the PT Cruiser Club's "1st Annual Vegas Cruise" to the annual "Woodward Dream Cruise" in Royal Oak, Michigan, PT-Tuning was there! We sponsor and participate in as many PT Cruiser activities as possible so that we can better know you, our customers. This provides us with feedback that we need to develop unique PT-specific products to satisfy your wants and needs.

At PT-Tuning, the customer always comes first! First in service & first in customer satisfaction — that is our goal!

"High Performance" isn't just a goal, it's our Mandate!

All our tuner products are engineered and developed to the highest performance and quality standards!

Installations are easy and many use only the factory mounting locations.

Never content to rest on our achievements, the PT-Tuning and Bauhaus design and engineering staff constantly strives to create the best in new products to further enhance the performance and enjoyment of our customers' vehicles.

Two pics taken during the PT Cruiser Club, SW region's Newport Beach Cruise.

PT-Tuning at the Harley Davidson Café in Las Vegas.
